

The image shows a vertical strip of a table on the left side of a white page. The table has a blue header bar at the top. Below the header, there are many rows and columns, creating a dense grid pattern. The text within the cells is too small to be legible. The rest of the page is blank white space.

This image shows a vertical rectangular area on the left side of a white page. It contains a dense, vertical stack of horizontal lines, which appear to be a highly compressed or corrupted representation of a table or data set. The lines are closely spaced and vary slightly in length and thickness, creating a textured, barcode-like appearance. No text or other graphical elements are visible within this area.
