

GOOD HOME FOR COMPANIES

AURELIUS is one of the leading European investment groups. From its offices in Munich, London, Stockholm and Madrid, AURELIUS acquires participations with development potential. Once under the AURELIUS umbrella, the acquisitions are given a long-term strategic orientation and their potential developed.

Currently, the AURELIUS Group consists of 25 subsidiaries with locations in Europe, Asia, and the U.S.A. These include traditional brands, service companies as well as numerous industrial enterprises. Companies are acquired based on strict investment criteria without focusing on any particular industry.

For our UK team we are looking for a

MANAGER OPERATIONS (M/F)

Responsibilities

Right after the completed acquisition of a new business by AURELIUS, you take part in the reorganization and restructuring of the portfolio company. Your main task is – together with the established management – to work out and implement a comprehensive restructuring concept to sustainably increase the value of the firm. This role comprises strategic and delivery elements, as well as the opportunity to support/lead on various interesting projects from the analysis to the final implementation. During your up to 12 months on site you actively engage in improving the competitiveness and profitability of our portfolio companies.

Qualifications required

- Completed Bachelor's or Master's degree (or higher) in business administration, finance, engineering or similar
- 5-10 yrs. of professional experience, whereof min. 2 yrs. in the UK, ideally a mixture of consulting background and industry experience
- Restructuring/operational experience is essential, experience in leading a team/project is an advantage
- Genuine interest in the private equity industry
- Analytical thinking, result-oriented personality, well developed sense of responsibility and strong teamwork ethic
- "hands-on", communicative and entrepreneurial personality
- Fluent in English, further language skills welcome
- Excellent computer skills (esp. Excel)
